

Cloud+

For Government Agencies
and Contractors

Enhance your Organization's Use of the Cloud

Staffing CompTIA Cloud+™ certified employees gives your organization a clear advantage in leveraging cloud-based solutions.

WHAT IS Cloud+?

CompTIA Cloud+ is a performance-based certification that validates the expertise needed to maintain and optimize cloud infrastructure services. IT professionals certified in Cloud+ can better realize the return on investment of cloud infrastructure services. Unlike other certifications, which may focus on a specific vendor or a single function like security or networking, Cloud+ reflects the breadth of skills needed for data center job roles.

Released in March 2018, Cloud+ 002 emphasizes incorporating and managing cloud technologies as part of broader systems operations. The exam assumes a candidate will weave together solutions that meet specific business needs and work in a variety of different industries.

As agencies pursue hybrid, multi- and other cloud deployment models, Cloud+ covers the new tools and technologies that support the changing cloud systems landscape.

WHO Cloud+ IS FOR

Cloud+ benefits IT professionals who manage infrastructure that utilizes cloud-based services. This includes technical professionals working in data centers, network operations centers, and service and support.

VERIFIED SKILLS

Cloud+ prepares IT pros to design, configure, install and maintain systems across cloud computing environments. The exam readies technicians to get more out of AWS, Azure and other vendor-specific cloud training and certification.

CERTIFICATION BENEFITS

Cloud+ certification solidifies your staff's skills, and maximizes their performance. In addition, Cloud+ covers more than a specific vendor or a single function like security or networking to help organizations better realize the return on investment of cloud infrastructure services.

WHY CHOOSE Cloud+?

Businesses report that a lack of cloud expertise is among their top challenges* and the government is no different in needing critical in-demand cloud skill sets.

- Integrating cloud-based services affects how you secure your IT infrastructure and data. CompTIA Cloud+ ensures your staff understands security implications and knows the right questions to ask.
- Cloud+ is a broad technical exam focused on implementation of appropriate cloud solutions to meet government agency requirements.

CompTIA Cloud+™ Certification for Government Agencies and Contractors

CompTIA Cloud+ certified professionals qualify for these job roles:

- System Administrator
- Network Engineer
- Cloud Developer
- Project Manager, Cloud Computing Services

Organizations that certify staff with Cloud+:

- U.S. Department of Defense
- NTT Communication Corporation
- BAE Systems
- Oracle
- MacAulay-Brown, Inc.
- MorphoTrust USA

Prove Your Cloud Skills

CompTIA Cloud+ includes multiple-choice and performance-based questions that require candidates to solve real-world problems. The exam validates a candidate's ability to work in cloud computing environments, demonstrating their expertise in securely implementing and maintaining cloud technologies.

Configurations & Deployment 24%	Security 16%	Management 20%	Troubleshooting 22%	Maintenance 18%
Analyze system requirements to successfully execute workload migrations to the cloud.	Implement appropriate security controls given requirements.	Determine proper allocation of cloud resources and apply necessary changes based on performance data.	Troubleshoot capacity, automation, connectivity and security issues related to cloud implementations.	Apply appropriate technologies and processes, including automation and orchestration, to ensure desired system performance.

“Whenever you’re bidding on projects in the federal sector, certifications mean a lot. We’re looked on more favorably than competitors who don’t have certifications.”

DAVID LUNDGREN,
IRON BOW

CompTIA Cloud+ CERTIFICATION EXAM (CVO-002)

- 90 questions
- 90 minutes in length
- 750 (on a scale of 100-900)

HOW TO GET Cloud+ CERTIFIED

1. Choose a training option

- Instructor-Led
- Self-Study
- Visit **Certification.**
CompTIA.org/training

2. Get familiar with the exam

- Download the exam objectives.
- Review sample questions from the exam.
- Visit **Certification.**
CompTIA.org/certifications/cloud

3. Test

- Locate a Pearson VUE testing center near you and take the Cloud+ exam.
- Visit **Certification.**
CompTIA.org/testing
